Making Implementation of State Wildlife Action Plans Seamless

State Wildlife Action Plan National Meeting Pine Mountain, GA

SEAFWA 2017
Creative Conservation Strategies For 21st Century Challenges

The Southeast Conservation Adaptation Strategy “Aligning Actions for Success”
Why SECAS?

Challenges of Change:

90% of Southeast is privately owned and with or without us, the landscape is being shaped
Purpose
“The purpose of the WRC is to develop and administer programs directed to the conservation of fish and wildlife resources and their habitats.”

Agency purpose is derived from enabling legislation in 1947 (G.S. 143-239):
“to manage, restore, develop, cultivate, conserve, protect, and regulate the game, game and freshwater fishes, and other wildlife resources of the State...”
Mission
The Wildlife Resources Commission conserves North Carolina’s wildlife resources and their habitats and provides programs and opportunities that allow hunters, anglers, boaters and other outdoor enthusiasts to enjoy wildlife-associated recreation.
Vision
The N.C. Wildlife Resources Commission is providing safe, comprehensive, effective and efficient fisheries, wildlife and boating programs that:

- **Conserve** the *diversity and abundance* of the State’s wildlife resources.
- Provide diverse *opportunities for all citizens* regardless of age or physical abilities to access and enjoy hunting, angling, boating and other wildlife-associated experiences.
- **Demonstrate** to the citizens of North Carolina through education and communication the critical role of wildlife management in sustaining the quality of our wildlife resources and their habitats.
- **Sustain working lands** and their associated wildlife communities.
- Have a strong and unequivocal *statutory base* that *supports constituent needs and agency sustainability*.
- **Feature strong partnerships** with other natural resource entities to complement the mission of the N.C. Wildlife Resources Commission and leverage resources to achieve that mission.
- Are **financially secure** through diverse, dedicated and ample funding.
- Are **based on sound science**.
The N.C. Wildlife Resources Commission is providing safe, comprehensive, effective and efficient fisheries, wildlife and boating programs that:

- Conserve the diversity and abundance of the State's wildlife resources.
- Provide diverse opportunities for all citizens regardless of age or physical abilities to access and enjoy hunting, angling, boating and other wildlife-associated experiences.
- Demonstrate to the citizens of North Carolina through education and communication the critical role of wildlife management in sustaining the quality of our wildlife resources and their habitats.
- Sustain working lands and their associated wildlife communities.
- Have a strong and unequivocal statutory base that supports constituent needs and agency sustainability.
- Feature strong partnerships with other natural resource entities to complement the mission of the N.C. Wildlife Resources Commission and leverage resources to achieve that mission.
- Are financially secure through diverse, dedicated and ample funding.
- Are based on sound science.

This map outlines the 16 states that make up the Southeastern Association of Fish and Wildlife Agencies and within that the six Landscape Conservation Cooperatives that are developing the Southeastern Conservation Adaptation Strategy (SECAS). These LCCs and the partners that have built them, cover all or part of every SEAFWA state, and SEAFWA's directors asked them to work with the states and other partners who serve on those LCCs to develop this strategy. For more information, visit SECASSoutheast.org.
State Wildlife Grant Success Story:
Southeast At-Risk Species Program

A broad partnership among the states, FWS, universities, corporate, and private partners.
Focuses surveys, monitoring, and research on priority at-risk species.
Blue Ribbon Panel Recommendations

1. Congress dedicate up to $1.3 billion annually in existing revenue from the development of energy and mineral resources on federal lands and waters to the Wildlife Conservation Restoration Program.

2. Examine the impact of societal changes on the relevancy of fish and wildlife conservation and make recommendations on how programs and agencies can evolve to engage and serve broader constituencies.
“Whatever we accomplish belongs to our entire group, a tribute to our combined effort.” - Walt Disney
